

San José Divers places to stay

We understand the difficulty and anxiety that can come with organising a place to stay. Below are a few places and areas that we think are safe, charming, clean and comfortable for your stay here with us.

1. Hotel El Ganzo – La Playita

Located 5 minutes from the dive centre, this gem of a hotel is located just outside Puerto Los Cabos, in La Playita. At the mouth of the marina, El Ganzo Hotel sits brazenly towards the western sunset with an infinity pool overlooking the marina and the Sea of Cortez. Stunning views, delicious cocktails, and tasty tacos are a standard when visiting here.

2. Desert Heart Hostel – Central San José

Located in central San José, this hostel is clean, comfortable, safe, friendly, and most importantly, right in the thick of things in San José's vibrant night scene. The staff are very friendly and can help you with anything to do with bookings and getting to the area.

3. Royal Solaris – Zona Hotelera

Located right on the beach in San José, The Royal Solaris is an all-inclusive option for those who don't want to worry about anything other than their diving. The rooms are large, comfortable, and clean and the hotel provides breakfast, lunch and dinner every day.

4. La Marina – La Playita

Located 5 minutes from the dive centre, La Marina Inn is an intimate getaway where Cabo history meets your legacy. Locked between the turquoise glimmer of the Sea of Cortez and the stunning San Jose del Cabo The Inn offers you a moment to truly connect with the powerful beauty of nature—it is one of the world's foremost fishing and surf spots—but also provides a laidback but very real slice of this enigmatic country. Miles of white-sand beach, the beautiful ocean, and a fascinating blend of culture can be your next await here.

5. One & Only – Palmilla Bay

This set of bungalows, suites and rooms are surrounded by ocean and beach almost all the way around. It is around 20 minutes driving to the dive centre, but there are few places as beautiful as this quiet and comfortable spot.

6. Airbnb

San José del Cabo is awash with Airbnb and other holiday rental properties to suit all size parties and budgets. When looking for an Airbnb around San José there are some common areas that can provide everything you want:

- a. Campo de golf Fonatur – A series of residential buildings and complexes wrapping around the Vidanta golf course. Most have parking, pools, laundry and other services.
- b. Zona Hotelera – running along the beaches of San José, this area has plenty of rooms within hotels and hotel grounds. Some won't have kitchens but are central enough to be easy to eat out anytime you want.
- c. La Playa – The small town where the dive centre and marina are located. Options here are a little sparse, but if the area is quiet and there is still plenty to do, and being close to where you'll be diving can remove the need for taxis or car rentals.
- d. El Centro – as the name suggests, this is downtown San José. The old town is charming, vibrant and full of things to do.
- e. Mauricio Castro "El Chamizal" – A 10-minute walk out of central San José, this area has a much more Mexican feel with lots of small restaurants, street food vendors and cute cafés. Prices here can often be a lot less than in the centre or around the golf courses.
- f. Magisterial – Close to El Chamizal and very similar, a little quieter, often with a small pool for cooling down. 20-minute walk out of downtown San José.

If you want any more information on any of our favourite spots to stay, or anything else to do with being here in Los Cabos, please don't hesitate to contact us.
